GETTING STARTED

POWER SOURCE

This unit operates on AC 230V ~ 50Hz AC-DC adaptor household current and
requires two "AAA" (UM-4) battery (included) for the remote control.
Do not attempt to operate the unit from any other power source. You could
cause damage to the unit and void your warranty.
AC Power Connection

Plug the AC/DC Adapter into an available 230V~ 50Hz AC Outlet. Make sure
the plug is securely inserted into the AC outlet.

STANDBY MODE

Standby Mode is when the unit is first plugged into an AC power source (display flashes and shows 00:00) or after all the settings have been made and the time is showing on the display. Standby mode is also enabled when the button is pressed and all functions (Bluetooth/Radio/CD/AUX) are off, no buttons are pressed and no alarms are sounding.

TURNING THE UNIT POWER ON/OFF

The LED DISPLAY will flash 00:00 when the unit is plugged in for the first time. The unit is now in standby mode.
Turning the unit ON:
• In Off (standby) mode, press the⏻ POWER/ STANDBY BUTTON on top of the main unit or on the remote control to turn the unit ON. The last selected source icon will show on LED display.

Turning the unit OFF:
• To turn the unit OFF (standby mode), press the⏻ POWER/ STANDBY BUTTON on top of the main unit or on the remote control to turn the unit OFF. The LED display will dim and show the current time.

SETTING THE CLOCK

The LED DISPLAY will flash 00:00 when the unit is plugged in for the first time. The unit is now in standby mode.

Setting the Time:
1. In standby mode, press and hold the CLOCK button on the main unit or remote control, the unit defaults to 24 HOUR format and "24 H" shows on the display.

2. Tap the ◄◄ or ►►I Button on either the main unit or remote control to change between 24 Hour mode "24-H" and 12 Hour mode "12-H" if needed.

3. When "24H" is showing on the LED Display, press the CLOCK button on top of the main unit or remote control to select 24 Hour clock format. The LED display will change to the time and the Hour digit will begin flashing.

4. Tap the ◄◄ or ►►I button on either the main unit or remote control to adjust the hour. Press and hold the ◄◄ or ►►I buttons for fast advance / reverse setting. Make sure the correct AM or PM time is selected when setting the hour.

5. Press the CLOCK button to confirm the hour setting, the minute digits will begin flashing.

6. Tap the ◄◄ or ►►I button on either the main unit or remote control to adjust the minutes. Press and hold the ◄◄ or ►►I buttons for fast advance / reverse setting.

7. Press the CLOCK button to complete the time setting.

NOTE: The clock will need to be reset if the power is interrupted or in the event of a power outage. "00:00" will appear and start blinking on the LED display to notify you that the power was interrupted and the clock will need to be reset. Please follow steps 1-7 above to reset the clock.

CHECKING THE CLOCK (REMOTE CONTROL ONLY)

The unit will show current time in standby mode. To check the current time in Power ON mode, tap the CLOCK Button on remote control, the current time will show for 3 seconds and then return to the previous screen.

ALARM OPERATION (REMOTE CONTROL ONLY)

SETTING THE ALARM CLOCK

This feature allows the system to turn on automatically and wake you using a beeping alarm, the CD or the RADIO.

1. In standby mode, press and hold the ALARM Button $\widehat{\mathbb{Q}}$ on remote control, hour digits of alarm clock start flashing. You can also tap the ALARM Button $\widehat{\mathbb{Q}}$ to direct enter alarm time setting mode without waiting.

2. Press the I◄ / ►I button to set the hour and then press the ALARM Button $\widehat{\mathbb{Q}}$ again to confirm, minute digits will be flashing.

 Note: The PM INDICATOR "P" will light located to the right of the Hour digits when the hour digits selected are for PM time.

 The AM INDICATOR "A" will light when the Hour digits selected are for AM time.

3. Press the I◄ / ►I button to set the minute and then press the ALARM Button $\widehat{\mathbb{Q}}$ again to confirm, alarm wake up source will appear in display.

4. Press the I◄ / ►I button to select wake to Beep (buzz), CD or and FM (RADIO) then press the ALARM button again to finish alarm setup.

NOTE:

1. If "Wake to CD" is selected but a CD is not inserted, the alarm will default to the Beeping Alarm automatically when the alarm wake time is reached.

2. For 'Wake to Radio', the system will default to the last radio station listened to before switching off.

ACTIVE/DE-ACTIVE ALARM FUNCTION

1. To activate ALARM, tap the "ALARM" Button $\widehat{\mathbb{Q}}$ once, the alarm icon " $\bigoplus$ " will shown on LED display.

2. To cancel ALARM function by tap again the "ALARM" Button $\widehat{\mathbb{Q}}$ until the alarm icon " $\bigoplus$ " goes off.

8

Wake to Radio, CD or Beeping Alarm

• When the alarm time is reached, the CD, radio or beeping alarm will sound
  for the time you set then shut off and reset itself for the following day.

• To stop the alarm immediately after it sounds, press the ⏻ button on
  main or remote control once. It resets itself for the following day.

• To cancel the following day alarm, tap the ALARM Button once, ALARM
  icon " 🕐 " goes off.

RADIO OPERATION

1. In Off (standby) mode, press the POWER/ STANDBY BUTTON ⏻ on top of
   the main unit or on the remote control to turn the unit ON.

2. Tap the MODE Button to select FM Radio mode. The FM channel frequency
   shown on the LED Display to confirm what mode you are in.

3. To manually tune to a specific radio station, tap the ⏮ or ⏭ button
   on either main unit or TUNE+ or TUNE- button on remote control repeatedly.
   Use the manual tuning method to tune in weaker stations that are bypassed
   during Automatic Tuning.

4. To automatically tune to the next available radio station, press and hold the
   ⏮ or ⏭ button on main unit or TUNE+ or TUNE- Button on remote control for
   1-2 seconds until frequency readout on the display begins to scan and then
   release the button. The tuner will stop scanning when it receives the next
   broadcasting station of adequate signal strength.

5. Press the volume control VOLUME+/– button on main unit or remote
   control to adjust the volume to the desired level.

FM & FM-Stereo Reception

- When listening to the FM radio, press the FM ST. button on remote control or main unit to switch between stereo mode and mono mode. The FM stereo icon "ST" will appear on the display if unit is in stereo mode. It is preferable to receive the program in mono when you are receiving a weak station.

HINTS FOR BEST RECEPTION:

FM - For best FM reception, the FM lead wire antenna located on the back of the unit should be fully unwrapped and extended.

NOTE: Automatic tuning depends on the signal strength of the broadcasting station, so weak stations may be skipped. You can manually tune to find the weak stations if a station gets skipped. With strong signals, the tuner may stop before it reaches the actual broadcast frequency, so you may need to manually tune for the best reception.

PRESET RADIO STATIONS

1. Press the POWER/ STANDBY ⏻ BUTTON on top of the main unit or on the remote control to turn on the unit.
2. If it is not in FM radio mode, tap the MODE Button to select FM radio mode.
3. Tune to the desired radio station either by "manually" or "automatically" tuning method.
4. Press and hold the PRESET/MEMORY Button on main unit or tap MEMORY Button on remote control, display will show memory preset number "P01" flashing and memory icon "PROG" showing in the LED display.
5. Tap the P+ or P- Button on remote control to select the preset number you want to assign the station to.
6. Tap the MEMORY Button on remote control to confirm the setting.
7. Repeat above steps 4 - 6 to preset up to 30 FM stations.

RECALLING PRESET MEMORY CHANNELS

In radio mode, to recall the pre-set channels by

1, Pressing the PRESET/MEMORY BUTTON on main unit, then tap the
  ⏮ or ⏭ Button repeatedly to select the preset radio station you want.

2, Pressing P+ or P- Button on remote control repeatedly to select directly.
